Architectural Design Phase Defects Checklist ¹

Nr.	Check Point / Defect Statement	Check Mark (√) the Appropriate Column	
		Yes	N/A
A01	Is the overall organization of the program clear, including good architectural overview?		√
A02	Is the subsystem and package partitioning and layering logically consistent?		√
A03	Does the architecture account for all of the requirements?	√	
A04	Are the classes in a subsystem supporting the services identified for the subsystem?	√	
A05	Is there a coherent error handling strategy provided?		√
A06	Have classic design patterns been considered where they might be incorporated into the architecture?	√	
A07	Is the name and description of each class clearly reflecting the played role ?	√	
A08	Is the description of each class accurately capturing the responsibilities of the class?		√
A09	Are the role names of aggregations and associations accurately describing the relationship between the related classes?	√	
A10	Are the key entity classes and their relationships are consistent with the business model (if it exists), domain model (if it exists), requirements?	√
